

About Us

Discovery Learning Center's mission as caregivers and educators is to provide a safe and nurturing learning environment that fosters a child's desire to explore, discover, create, and become a lifelong learner.

We believe in the value of each individual child and, through relevant training and experience, seek to promote each child's social, emotional, physical, and cognitive development. Children are naturally ready to learn and we will strive to provide programs that create learning environments that are safe, stimulating, and encouraging.
